

Material Safety Data Sheet

Page : 1/4

Revue le :04/03/2008

Nom commercial du produit : Multi-T, Multi-P silicone

1 Identification of the substance/preparation and of the company/undertaking

Trade name and synonyms : Multi-T, Multi-P silicone

Company :

RMO Europe

BP 20334

Rue Geiler de Kaysersberg

67411 ILLKIRCH Cedex France

Tel. 03 88 40 67 30

Fax 03 88 67 86 96

2 Composition/information on ingredients

Chemical nature

Polydimethylsiloxane containing vinyl groups, with Platinum catalyst and inhibitors.

3 Hazards identification

Risk advice to man and the environment

None known.

4 First aid measures

Skin contact: Wash off with soap and plenty of water.

Eye contact: Immediately flush eye(s) with plenty of water.

Ingestion: Drink 1 or 2 glasses of water. Do NOT induce vomiting. Obtain medical attention.

5 Fire-fighting measures

Suitable extinguishing media: All standard extinguishing agents are suitable.

6 Accidental releasemeasures

Personal precautions: Remove all sources of ignition.

Environmental precautions: Do not flush into surface water or sanitary sewer system.

Methods for cleaning up: Sweep up or vacuum up spillage and collect in suitable container for disposal.

Further information: Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Nom commercial du produit : Multi-T, Multi-P silicone

7 Handling and storage

Handling :

Advice on protection against fire and Explosion: Keep away from sources of ignition - No smoking.

Storage :

Requirements for storage areas and Containers: Keep tightly closed in a dry and cool place.

Further information on storage conditions: No information available.

Advice on common storage: Keep away from food, drink and animal feeding stuffs.

8 Exposure controls / personal protection

Personal protective equipment

Hand protection: There is no risk to health due to contact with the chemical. Use hand protection to prevent mechanically injuries.

Eye protection: Safety glasses with side-shields conforming to EN 166

Hygiene measures: Handle in accordance with good industrial hygiene and safety practice.

When using, do not eat, drink or smoke.

Wash hands before breaks and at the end of workday.

Avoid contact with the skin and the eyes.

9 Physical and chemical properties

Colour: translucent

Odour: faint distinctive odour

Safety data

Vapour pressure : <5 hPa at 20 °C

Method: EU A4

Vapour pressure : <15 hPa at 50 °C

Method: EU A4

Nom commercial du produit : Multi-T, Multi-P silicone

Solubility/qualitative: Soluble in toluene

Water solubility: Not soluble

Miscibility with water: non miscible (<10%)

10 Stability and reactivity

Further information : Measurements at temperatures above 150°C in presence of air (oxygen) have shown that small amounts of formaldehyde are formed due to oxidative degradation.

11 Toxicological information

Human experience: Our Experience shows that our Silicone Elastomer products can be handled without risk to health if used properly and if the usual precautions for industrial hygiene are observed.

12 Ecological information

Additional ecological information: Ecotoxicological data for this product is not available.

13 Disposal considerations

Product: According to local regulations, can be taken to an appropriate incinerator equipped with exhaust gas cleaning.

Contaminated packaging: Dispose of as unused product.

14 Transport information

Further Information: This product is not regarded as dangerous goods according to the national and international regulations on the transport of dangerous goods.
Keep away from foodstuffs and animal feed.

15 Regulatory information

Labelling according to EC Directives 1999/45/EC

Further information: Not a hazardous substance or preparation according to EC directives 67/548/EEC or 1999/45/EC.

The product does not need to be labelled in accordance with EC directives or respective national laws.
